

Over 100 Years of Experience

DekTite® Roof Boots

All-In-One flashing that revolutionized the industry.

DekTite® flashers come in nine different sized for pipes ranging from 1/4" to 19" in diameter and are available in black & grey EPDM or red brick silicone for high temperature application.

DekTite® flashers make installation a breeze on any kind of roofing.

- Superior design
- Fits any hole
- 20 year warranty
- Rapid installation
- Low profile

With DekTite® flashers, custom fabricating and time-consuming fittings are a thing of the past.

DekTite® flashers require no fancy tools or complicated installation methods. The rubber cone is clearly marked with pipe dimensions, in both inches and millimeters, so it can be easily customized with tin snips or scissors.

DekTite® flashers' flexible rubber won't crack and allows for expansion, contraction, and pipe vibration. The heavy rubber fold at the base allows them to fit any roof style.
